INDEX TO VOLUME XXXIX, 1927.

PAGE

Aeronautical Power Plants....586, 750
Airplane Design, Apparent Present Tendencies in.... 577
Aircraft, Metal 584
Aircraft Power Plant Installations, by H. M. Mullinnix, Lieutenant, U. S. N. 68
Aircraft Engines, Air-cooled, American, by Eugene E. Wilson, Commander, U. S. N.... 533
Aluminum Bronze 716
Anchor Bolts for Refractories.... 442
Association Notes 202, 454, 610, 756
Banquet of American Society of Naval Engineers.... 331
Boiler Compound, Navy Standard, Notes on.... 564
Boiler-Flue Gases, Notes on the Sampling of.... 98
Boiler Tubes, Why They Blow Out.... 414
Boilers, Water-Tube, Small-Tube, Damages to Tubes of, by Julius Levai, Ing. 39
Book Reviews 200, 751
Brushes For Direct-Current Machines.... 91
Carbon Brushes, by Lieut. Commander T. A. Solberg, U. S. N.... 636
Central-Station Power, Discussion at Session on.... 384
Chart Construction, Nautical, by John H. Larrabee.... 227
Chromium Plating is Expanding.... 120
Circulation Theory, Application of, to a Hydraulic Propeller.... 333
Condenser-Steam, Practice and Performance.... 365
Condensers, Surface, Auxiliary Super-cooling in.... 411
Condensers, Surface, Operating Performance of Some Modern.... 349
Condenser Tubes, Notes on.... 334
Condenser Tubes, Surface, Erosion of.... 407, 589
Cooling System of Diesel Engines, Transmission and Removal or Heat by, by William Wakefield, Lieutenant, U. S. N. 514
Daggett, R. B., Lieutenant (C. C.) U. S. N., Rubberization as a Protection Against Corrosion and Abrasion.... 693
Diesel Engine, New Double-Acting, Two-Cycle.... 598
Diesel-Electricity for New Conversions.... 719
Diesel Engine, New Hamilton M. A. N., Two-Cycle, Double-Acting, Marine, by Henrik Greger.... 544

PAGE

Diesel Engines, Transmission and Removal of Heat by the Cooling System of, by William Wakefield, Lieutenant, U. S. N. 514
Dyson, C. W., Rear Admiral, U. S. N. (Retired), Screw Propellers, Fallacies and Facts 249
Economical Ship, The World's Most 600
Engineering 85
Engineering Competition, Some Criticisms and a Suggested Remedy, by H. T. Smith, Commander, U. S. N. 560
Engines, Aircraft, Air-cooled, American, by Eugene E. Wilson, Commander, U. S. N. 533
Erosion of Surface Condenser Tubes 589
Experiments with New Ship Lines, by Maier 721
Fatigue Failure of Metals, Mechanism of 336
Flying and the Naval Engineer, by Edward P. Warner, Assistant Secretary of the Navy for Aeronautics 319
Forged Drums, High-Pressure, to be Covered by A. S. M. E. Code 106
Fuel Indicator, Baulino Continuous 438
German Double-Acting Diesel Engines 719
Giant White Star Motor Liner 725
Greger, Henrik, The New Hamilton-M. A. N. Two-Cycle, Double-Acting, Marine Engine 544
High-Pressure Forged Drums to be Covered by A. S. M. E. Code 106
High-Pressure Steam for Marine Application, Possible Developments in (Abstracts from the German Press), by E. C. Magdeburger 76
Honored Names in Marine Engineering, by Walter M. McFarland 207
Huey, C., Salinity or Impurity Determination of Boiler Feed Water 658
Huey, C., Tachometers, Revolution Indicators, Speed Indicators and Revolution Counters, Types and Principles of Operation 457
Installation of Dummy Piston and Cylinder in Main High-Pressure Turbine of U. S. S. *Leviathan*, by H. J. Reuse, Lieut. Commander, U. S. Navy 624
Irish, J. M., Commander, U. S. N., Introduction to Dyson's Method of Propeller Design 52
Irish, J. M., Commander, U. S. N., Review of "Practical Application of Modern Hydrodynamics to Marine Propulsion" (February, 1927) 315
Kaplan, Leonard, Lieutenant (C. C.) U. S. N., The "Spanish Prisoner" Problem 324
Larrabee, John H., Nautical Chart Construction 227
Levai, Julius, Ing., Damages to the Tubes of Small-Tube, Water-Tube Boilers 39
Leviathan, Installation of Dummy Piston and Cylinder, Main High-Pressure Turbine, by H. J. Reuse, Lieut. Commander, U. S. N. 624
Lexington and *Saratoga* 739
Lincoln, J. B., Worthington Single Stage Contrifugal Pump 305

Macalpine, John H., Obituary ... 607
McFarland, Walter M., Honored Names in Marine Engineering ... 207
Manganese Position, The ... 597
M. A. N. Two-Cycle, Double-Acting, Marine Engine, New Hamilton, by Henrik Greger ... 544
Marine Engineering, Progress of ... 125
Modified Back Pressure Valve, by C. J. Odend'hal, Lieut. Commander (E) U. S. Coast Guard, Member ... 702
Mullinnix, H. M., Lieutenant, U. S. Navy, Aircraft Power Plant Installations ... 68
National Defense an Investment ... 707
Nelson and *Rodney*, New British Battleships ... 426
New Bessemer Diesel Has Many Refinements ... 744
Night Flying in Bad Weather ... 449
Odend'hal, C. J., Lieut. Commander (E) U. S. C. G., Modified Back-Pressure Valve ... 702
Practical Application of Modern Hydrodynamics to Marine Propulsion, by Stephen Elmer Slocum, Ph.D. ... 1
"Practical Application of Modern Hydrodynamics to Marine Propulsion" (February, 1927), Review of, by J. M. Irish, Commander, U. S. N. ... 315
Propeller Design by the Dyson Method, Additional Chart for, by E. A. Stevens, Jr. ... 501
Propeller Design, Dyson's Method, Introduction to, by J. M. Irish, Commander, U. S. N. ... 52
Propeller, Hydraulic, Application of Circulation Theory to ... 333
Propellers, Screw—Fallacies and Facts, by C. W. Dyson, Rear Admiral, U. S. N. (Retired) ... 249
Pulverized Fuel for Marine Purposes ... 711
Pumps, Centrifugal, Characteristics of ... 108
Pump, Worthington Single-Stage Centrifugal, by J. B. Lincoln ... 305
Re-Engining the Fruit-Carrier *LaPlaya* ... 734
Reuse, H. J., Lieut. Commander, U. S. N., Installation of Dummy Piston and Cylinder in Main H.-P. Turbine, *Leviathan* ... 624
Revolution Indicators, Tachometers, Speed Indicators and Revolution Counters, Types and Principles of Operation, by C. Huey ... 457
Rodney and *Nelson*, New British Battleships ... 426
Rubberization as a Protection Against Corrosion and Abrasion, by Roswell B. Daggett, Lieutenant (C. C.) U. S. N. ... 693
Salinity or Impurity Determination of Boiler-Feed Water, by C. Huey, Civil Member ... 658
Scientific Method, The ... 602
Shaft Rubbing ... 114
